

Northwest MO Area Agency on Aging Services Spotlight

Homemaker Service

Homemaker Services provide needed assistance to individuals to complete activities of daily living that they are unable to perform alone. Homemaker Services may prevent or delay premature or inappropriate institutionalization, making it possible for individuals to continue living in their own homes or to return to their homes.

Covered Services

Homemaker Services are day to day household tasks including:

- Housekeeping (dusting, cleaning, vacuuming)
- Laundry
- Grocery shopping
- Meal preparation

An individual who qualifies will receive Homemaker Services as approved in the individual's care plan. The Northwest Missouri Area Agency on Aging does not directly provide Homemaker Services, but contracts with local homemaker/home health agencies to provide services.

Eligibility: A person at least 60 years of age who has been assessed and shows an adequate need in order to remain in the home.

Cost: None – voluntary contribution
