200% \$1980/month

*250% \$2475/month

**300% \$2970/month

500% \$4950/month

OOP is Out of Pocket

Notes:

It is advisable to call the program before beginning the application for several reasons.

- 1) Confirm that the patient meets all the eligibility requirements. The program may not be available for all forms of the product.
- 2) Confirm all the documentation that needs to be sent with the application or it will be considered an incomplete application. Ask what is acceptable documentation for income, Rx expenditures and ineligibility for LIS.
- 3) The prescriber will need to complete a section of the application.
